EDUCATION ISSUES:

7/21/13

5:30AM

25:00

PERSPECTIVES: Mindy Binderman, Executive Director, GEERS – Georgia Early Education Alliance for Ready Students-Any child care program participating in Georgia's Quality Rated has agreed to meet standards that exceed the state's licensing requirements and is committed to improving the quality of care it provides to children. Based on the results of a rigorous application process, programs are awarded one star, two stars, or three stars. A star rating – regardless if it is one, two or three stars – indicates a higher quality program. Stars are awarded based on a combination of points gathered from an independent observation and a portfolio that demonstrates that the program meets standards above and beyond what licensing requires. The number of stars simply reflects scores above certain levels. The Quality Rated system was designed so that any parent selecting a program participating in Quality Rated can feel confident that they are enrolling their child in a program that is committed to continuous quality improvement and higher quality standards.

7/21/13

6AM

10:00

BUSINESS IN THE BLACK: Lesli Rotenberg, General Manager PBS Children Programming talks about how teachers spend the first 4-6 weeks of the semester re-teaching material from the previous year. She gives tips on how to help your kids retain information over the summer.

9/30/13

ISSUE & DESCRIPTION

DATE

TIME

LENGTH

HEALTH /SAFETY / CRIME:

7/14/13 6am 10:00
 BUSINESS IN THE BLACK: Dr. John Ouderkirk, founder of Piedmont Health & Wellness of Atlanta, specializing in Infectious Disease talks about the recent outbreak of meningitis in LA and New York. Meningitis is a sporadic and uncommon of the blood and lining of the brain and the spinal cord. It can cause brain damage, hearing loss and death. Dr.Ouderkirk discusses how the disease is transferred through the mouth, nose and throat-large size droplets-it is not transmitted through sex. Vaccinations are recommended for everyone.

7/14/13 7AM 50:00
 HEALTH TALK: Pesticide poison the lawn. It can affect pets. Mercury is a highly toxic poison. Mercury is in the fish we eat. GMO... genetically modified foods, corn... absorbed in plants. Natural products still have harmful chemicals in it. The younger generation is getting diseases earlier. Pesticide can affect the nervous system in our bodies. Avoid "anti" products. Chemicals are stored in fat cells. Our body is made up of bacteria. Cancers and other diseases are link to pesticides. The nervous system controls everything in our body. Avoid air freshener... artificial scents.

7/21/13 6AM 10:00
 BUSINESS IN THE BLACK: Dave Strickland, President of National Highway Safety Administration and Kate Carr, CEO of the Safe Kids Worldwide talks about how quickly leaving your child in a hot car can turn tragic. In the last month, 4 children have died in unattended cars due to heat stroke and 32 children died in 2012. Strickland gave great tips for parents such as placing your purse, briefcase or cell phone in the back seat so you won't forget the baby

7/21/13 7AM 50:00
 HEALTH TALK: What You Know About Diet And Exercise is WRONG! Exercise should be 25% of your concern. 75% should be nutrition. Extreme cardio exercises are NOT the best for you. Little bursts of cardio for 30 seconds, rest for 90 seconds, and repeat 8 times. This results in higher levels of human growth hormone. Using this method, you can complete your exercises in 20 minutes. And the benefits are greater than an hour of exercise. No sugar after the work out. It shuts down the production of human growth hormone. NO ENERGY DRINKS! Water is what you need. Another myth is diet and exercise is equal in losing weight. It's not, DIET is the most important! You should divide everything you eat in to two types. Does it nourish your system, or not. If you don't get nourishment from it, don't eat it. Avoid the seven deadly food, alcohol, meat, dairy, sugar, coffee, and diet sodas.

HEALTH /SAFETY / CRIME:

7/28/13

5:30AM

24:00

PERSPECTIVES: Dr. Stanley Cohen, Pediatric Gastroenterologist, Children's Health Care of Atlanta-Since economic drivers now supplement nutritional value when parents make feeding decisions, What to Feed Your Baby: Cost Conscious Nutrition for Your Infant presents vital information that will help parents provide optimal nutrition for their infants in a cost effective way. The author's clear explanations and thoughtful recommendations are often surprising, occasionally startling, sometimes controversial, and always useful. Common questions are carefully answered and supplemented with charts, figures, and summaries that highlight important points. The author's innovative, cost-sensitive methods can save both new and seasoned parents hundreds to thousands of dollars yearly and improve their families' nutrition at the same time. His recommendations, which have received national commendation from the American Academy of Pediatrics, serve as the basis for a better understanding of the complexities of infant formula, the benefits of breastfeeding, handling allergies, introducing solid foods, and other feeding decisions, while addressing cost-sensitivity and overall nutrition for newborns and infants. Using poignant patient narratives and a conversational voice, Dr. Stan Cohen offers parents a fuller picture of the broad spectrum of eating and feeding choices facing parents today.

7/28/13

7AM

50:00

HEALTH TALK: Top Health Stories of The Past Year! Grains can be dangerous. Grains can tear a hole in your gut. These holes allow gut contents to get in the blood system and cause many health problems. Whole grain bread is healthy- Another health myth. Genetically modified food is a top health story of the past year. The GMF's were supposed to be the answer to the world food shortage. GMF's contribute to many health problems. Vitamin D3 is vital to human function. Vitamin d3 is 87% more potent than vitamin d2. We are just beginning to understand the importance of vitamin d3. A great source is Lychins. The key to absorption is sunlight. Cancer research, certain foods increase your risk of getting cancer. Alcohol, meat, and sugar are major contributors to tumor growth. There are also certain foods that decrease your risk. Cabbages, brussel sprouts, flax seeds, herbs, all can decrease tumour growth. Gut flora is vital. Disease starts in your gut. It serves as a second brain. There are more nerve endings in the gut than anywhere else in the body. There is a new study that suggests unbalanced or damaged flora in mothers can be a driving force in the rise in Autism. More research to follow.

8/4/13

6AM

10:00

BUSINESS IN THE BLACK: Dr. Elliott Vichinsky, Director of Hematology/Oncology at Children's Hospital & Research Center Oakland, CA talks about Sickle Cell Disease which not only affects individuals of African descent but is prevalent throughout the Mediterranean, Middle East, India, the Caribbean and South and Central America. There are approx. 2.5 million people with Sickle Cell trait. While there is no cure, current treatments manage the complications.

8/4/13

7AM

50:00

HEALTH TALK: Daily Habits that Pack on the Pounds-Foods not have pesticides and are not organic like foods we grew up on. We do things everyday to add pounds to our body. Chemicals we eat, pack on the pounds. There are more obese people than over-weight people. Cut fructose out of the diet. 90% of our nerves don't feel pain. Exercise is important and critical for weight loss. Stick to water... energy drinks and drinks that replenish are full of sugar. Hydration will increase or decrease your weight loss. Performance drinks make the body worse. High Fructose corn syrup is corrupting our weight. Don't eat 3 hours before you go to bed. Drink water as soon as you wake up. Give the body enough time to burn fat over night. 12 hours on fat burning over night. Snacks before and after a workout, eat whole foods, organic foods or raw foods. Use organic apple cider vinegar for a salad dressing. Eat low fructose fruits. Fruits, vegetables, nuts and seeds are great for the body and are good habits. Avoid sugars and artificial sweeteners. Diet sodas increase your cravings.

HEALTH /SAFETY / CRIME:

8/18/13 6am 10:00
BUSINESS IN THE BLACK: Kate Carr, CEO of Safe Kids Worldwide talks about the high incidence of children swallowing button batteries in the home. When a child swallows the coin-sized lithium batteries, their saliva triggers the electrical current and can burn their esophagus in as little as two hours. Kids under 4 years are at greater risk, so parents should put the batteries and devices out of sight.

8/18/13 7am 50:00
HEALTH TALK: New Medical Protocols-New guidelines call for physicians to pull back on prescribing drugs. Many antibiotics and pain killers are over-prescribed. Depression, a recent study with anti-depressants, they were linked with autism in children. There is an over-prescription of anti-depressants in children. Long term use has major side effects. A natural remedy is in nutrition. Also, the digestive system has to be functioning properly. Inflammatory reactions, when inflammation is left un-checked, it is linked to many health problems. If you are constantly on anti-inflammatories, you are not getting to the cause of the inflammation. Drugs never address the cause.

8/25/13 7am 50:00
HEALTH TALK: New Medical Protocols Part II-Cholesterol is treated with statin drugs. A new study indicates that statin drugs have many side effects. Statin drugs also block the production of CoQ 10. This leads to muscle weakness. Statin drugs affect the liver. Exercise is helpful when dealing with inflammation. Changes in diet will help instantly with inflammation. A plant based diet of fruits, veggies, nuts, and seeds is the best choice. A recent study on Aspirin, found no benefit at all for prevention of heart attack. Constant use of aspirin can lead to upper GI bleeding. Also, it can lead to hearing loss. Antibiotics should only be prescribed for serious infections. They should not be prescribed for minor things like ear or sinus infections.

9/1/13 7am 50:00
HEALTH TALK: Freaky Food Facts Part 1-Give up the foods around 5pm-6pm and detox the body and not eat again until the morning. The nervous system controls everything. Make your own foods. Fresh fruits are great. Can foods are ok if organic. Save time and save money by learning to cook. Eating right helps change the diet. Stop eating all gluten for 10 days. Then try eating pizza. See how you feel. Cattle is pumped full of growth hormones that are stored in the animals fat cells.

WSB-FM ISSUES & PROGRAMS –3rd QTR. 2013**9/30/13****ISSUE & DESCRIPTION****DATE****TIME****LENGTH****HEALTH /SAFETY / CRIME:**

9/8/13

7AM

50:00

HEALTH TALK: Freaky Food Facts Part 2-Give up the foods around 5pm-6pm and detox the body and not eat again until the morning. The nervous system controls everything. Make your own foods. Fresh fruits are great. Can foods are ok if organic. Save time and save money by learning to cook. Eating right helps change the diet. Stop eating all gluten for 10 days. Then try eating pizza. See how you feel. Cattle is pumped full of growth hormones that are stored in the animals fat cells. Food dyes studies show they can contain cancerous chemicals that can affect us. Get frozen foods and vegetable. There are a lot of foods we can't avoid that affect us. Most super market meats are filled with antibiotics.

9/15/13

7AM

50:00

HEALTH TALK: Foods We Should Never Eat- Avoid all processed meats, deli meats... they are not good for us. They increase our chances of cancer. Trans fats leads to other bad fats. Manmade fats are unsafe. Organic butter is ok but you or you can use extra virgin olive oil. Microwave popcorn has chemicals that can contaminate our body. They increase the odds for infertility. Non organic vegetables have to be thoroughly washed. Salts are not all bad.

9/22/13

7AM

50:00

HEALTH TALK: Blood Pressure Part 2-Snoring and sleep apnea can contribute to heart disease. Stomach can push up into the diaphragm. Migraines can also be a sign of heart problems. Number one cause of headaches is pain in the back and artificial sweeteners. Don't eat out of plastics or drink. Marital stress may increase chances of heart disease. Chemical stress can cause you to eat the worse foods. Throw out the bad foods. Physical stress and pains are warning signs that something is wrong. Stroke is the number 1 cause of long term disability. Things you can do to prevent heart disease... walk! Stay active and exercise the body. Egg yokes have nothing to do with raising cholesterol. Fiber is important in heart disease preventions. Shoot for 32 grams of fiber a day. Avoid process meats, it can increase the chances of stroke.

9/22/13

7AM

50:00

HEART TALK: Blood Pressure, Heart Disease, Stroke-The doctors say it's normal to have high blood pressure at an old age. BPA is found in plastics and alter your hormone levels. We are all at risk. Don't heat plastic in the microwave. You should not use the microwave unless using glass containers. Use essential oils instead of perfumes. Use a spray bottle, rubbing alcohol, water and tea tree oil as a replacement. Have a normal functional nervous system and digestive system. Alcohols, sugars and acids irritates the heart and blood pressure. Water is key the keeping the body hydrated. Thyroids increase the blood pressure in children. Omega 3 fatty acids may increase the chances of heart disease. Dairy products and gluten can irritate the bowels. The higher the mercury level in fish the worse the chances are increased for heart disease. We are all exposed to mercury due to car exhaust. Clogged arteries can affect sexual malfunctions.

7/14/13

5:30AM25:00

PERSPECTIVES: Wendy Williams, TV Host, Author-Go ahead . . . ask her anything. Over the radio and now on her popular TV talk show, Wendy Williams has always been approached for her blunt, in-your-face words of advice. "Ask Wendy" has become more than just a fan-favorite TV segment; it's her calling card. Wendy has helped her viewers cope with everything from backstabbing girlfriends and deadbeat boyfriends to crazy mothers-in-law and jealous coworkers. Fans trust Wendy, even when her advice is tough to hear. She's earned her reputation as "the friend in your head." On TV Wendy only has a few minutes to respond to each audience member, but in Ask Wendy she goes deeper, answering questions sourced from viewers across the country. No question is off-limits and no situation is too outrageous for her to take on.

7/28/13

6AM

12:00

PERSPECTIVES: Tedra Cheatham, Executive Director, Georgia Clean Air Campaign-During Georgia Telework Week August 19-23, The Clean Air Campaign, Georgia Commute Options partners and Governor Nathan Deal are teaming up to educate employers about the continued growth of telework and its role as a workplace strategy. During Georgia Telework Week, The Clean Air Campaign is hosting two free Telework Summit events to provide new ideas and guidance for employers looking to implement a formal telework program, tune up their existing program or expand on the success of their current efforts. There will be seminars in Gwinnett County and the Perimeter area, featuring presentations from AT&T Mobility, Assurant, Chico’s, Georgia 811 and other local employers discussing their successful approaches to telework. Those interested in attending can sign up at GACommuteOptions.com/Telework.

ART/ ENTERTAINMENT / RECREATION / ENVIRONMENTAL ISSUES:

9/15/13 6AM 17:00

BUSINESS IN THE BLACK: Sara Teagle, CEO of The Steppers Club talks about the 14th annual Steppers Ball being held Labor Day weekend in Atlanta. The 5 day event includes Chicago style stepping workshops, 4 theme balls and a cookout for the thousands of guests from over 60 cities.

9/22/13 5:30AM 25:00

PERSPECTIVES: Lee Daniels, Director and Wil Haygood, Writer – Lee Daniels' *The Butler*-*The Butler* is a 2013 American historical fiction drama film directed by Lee Daniels, written by Danny Strong, and featuring an ensemble cast. Loosely inspired by the real-life of Eugene Allen, who was profiled in the Washington Post in 2008 – “A Butler Well Served by this Election,” the film stars Forest Whitaker as Cecil Gaines, an African-American who eyewitnesses notable events of the 20th century during his 34-year tenure serving as a White House butler. It was the last film produced by Laura Ziskin, [who died in 2011]. The film was theatrically released by The Weinstein Company on August 16, 2013, to mostly positive reviews and was a box office hit, grossing over \$110 million in the United States against a budget of \$30 million.

9/23/13 5:30AM 25:00

PERSPECTIVES: Writer/director Noel Calloway and Actor Robbie Tate Brickle “Life, Love, Soul” -Calloway knows all about life’s hard knocks. Born and raised in Harlem with an absentee father, Calloway found himself in foster care when both parents were incarcerated. Despite a difficult childhood, Calloway flipped the script against the odds, and today is a successful filmmaker. He uses real-life experiences to tell the story of a fatherless son in his debut film, “Life, Love, Soul.” Through Calloway’s camera lens, he tackles the father factor of a fatherless son that especially plagues the African American community. The award-winning indie tells the story of a young man estranged from his father and forced to re-connect when tragedy strikes home. As the emotional tale unfolds, “Life, Love, Soul” tugs at feelings of abandonment, resentment, and loss in a story of a son left behind. “Life, Love, Soul” is a tragedy-to-triumph story of a young man who loses everything, but rebounds to become the man everyone in his life can be proud of. On August 8, “Life, Love, Soul” was selected as the opening film for the first annual Fatherhood Image Film Festival in New York.

9/29/13 5:30AM 25:00

PERSPECTIVES: Tony and Grammy Award winning Artist – Jennifer Holliday- Jennifer Holiday is a woman who has been proclaimed by both critics and the fans as one of Broadway’s greatest legends. Her show-stopping, heart-wrenching performance of the torch ballad “And I’m Telling You, I’m Not Going” in the smash hit Broadway musical *Dreamgirls* made her a household name and introduced her big soulful voice to the world. Her portrayal of Effie White, a role which she co-created, not only brought theatergoers to their feet for 8 performances a week, but also won her the Tony Award for Best Actress in a Musical and her first Grammy Award for Best R&B Female Vocalist. Ms. Holliday makes her home here in Atlanta, and tonight – you have the chance to see her at Broadway in the Garden – a benefit concert under the tent on the great lawn at the Atlanta Botanical Gardens at 6:30.

9/29/13 6AM 10:00

BUSINESS IN THE BLACK: Dr. Charles Gerba better known as Dr. Germ is an environmental microbiologist and professor at the University of Arizona joins us to talk about the indoor air quality as fall approaches. Dr. Germ says that since most homes are now constructed airtight, the inside of the house can expose us to 100 times more air pollutants and contaminants than the outdoors.

=====

WOMEN/MINORITY ISSUES:

8/11/13

6AM

12:00

BUSINESS IN THE BLACK: Author, Kay Wills Wyma talks about her new book Cleaning House: A Mom's Twelve Month Experiment to Rid Her House of Youth Entitlement. She has five children ages 4-14 and considers herself a recovering enabler as she did everything for her kids, not allowing them to grow up or learn to do anything for themselves.

8/25/13

5:30AM

25:00

PERSPECTIVES: Special Program – MLK 50th Anniversary of the March on Washington-They came from Los Angeles and San Francisco; from Cleveland and Chicago; from Birmingham, Alabama and Jackson Mississippi, and from Atlanta, Georgia. In 1963 blacks could not go to school where we wanted, eat where we pleased build or buy a home in any neighborhood, and certainly not hold any job desired. ON August 28, 1963, some 200-250-thousand Americans, mostly black but including thousands of whites, traveled to Washington, DC for the “March on Washington for Jobs and Freedom.” The march had been organized by the so called “big 6” leaders of the Civil Rights Movement; Roy Wilkins, executive director of the NAACP, Whitney Young, Jr. from the National Urban League, John Lewis, leader of the Student Non-Violent Coordinating Committee or SNCC, labor organizer A. Phillip Randolph, and Dr. Martin Luther King, Jr, co-founder of the Southern Christian Leadership Conference. Everyone except the organizers expected violence. Marchers had been trained in non-violent civil disobedience.

9/1/13

5:30AM

25:00

PERSPECTIVES: Elisabeth Omilami, Executive Director, Hosea Feed the Hungry-On September 5, Hosea Feed the Hungry partnered with the Georgia Department of Labor and other corporate partners to host “Labor of Love” an even that gave Atlanta citizens an opportunity to get back to work. The event took place at the Turner Field Gold Parking Lot. Labor of Love was created to reclaim some of the initial promise of Labor Day – a celebration of American labor and an inspiration that there is hope for American citizens. During the event, individuals had access to job opportunities, clinics to sharpen their job interviewing skills and work with job counselors to critique their resumes. While the national unemployment rate hovers around 7.4 percent, the rate in Georgia hovers around 8.6 percent. Labor of Love seeks to meet the basic employment needs of many.
